Dear Ms. Garcia-Wright and Ms. Goyette:

**Re: Durham/York Energy from Waste Project  
UPDATED Submission of the Regional Municipality Waste Diversion Program Monitoring  
Plan (Environmental Assessment Condition 10)  
MOE File No.: EA-08-02**

On October 21, 2011 York Region submitted the 2010 Waste Diversion Report in accordance with the requirements of Environmental Assessment Condition 10.

Some minor modifications were made to the original submission including some additions to our local municipal programs found on pages 6 and 7, a revised project timeline for the Integrated Waste Management Master Plan on page 9, and the correction of the Municipal Hazardous and Special Waste tonnage graph (mistakenly combined with Waste Electronics tonnage data) on page 15.

Please find attached a revised version of the York Region 2010 Waste Diversion Report. A revised copy will be placed on our website for public access.

We trust that this plan meets expectation as outlined in the Minister's Notice of Approval. If you require additional information, please contact the undersigned.

Sincerely,

Laura McDowell, P.Eng.  
Director, Environmental Promotion and Protection
